ANNOUNCEMENT OF UNCLASSIFIED POSITION

FIRE PROTECTION ANALYST

\$54,268.03 - \$87,652.52 ANNUALLY

NATURE OF WORK: This is advanced responsible technical and administrative work involving the enforcement of laws, regulations, codes, and ordinances governing fire protection, prevention, and safety. An employee in this classification is responsible for examining construction plans, conducting field inspections of buildings, training fire division personnel, testing the performance of fire protection systems and equipment, and issuing violations for fire hazards or unsafe conditions. The incumbent performs research, prepares reports, and maintain records on fire prevention activities.

REQUIREMENTS: Florida State Certification as a Fire Inspector

DESIRES: Associates degree in fire science, engineering, architecture, construction, or equivalent field and two (2) years experience performing fire or building code inspections, reading building construction plans, or testing fire protection/prevention equipment. Four years related experience may substitute for Associates degree. Related experience and responsibility include performing work in fire or building code inspections, reading construction plans and testing fire protection/prevention equipment.
